

NO DOGS

Go for a walk on Peckham Rye.

If you are on your own, greet every sign that says 'no dogs' with a loud bark, yap or growl, then walk on.

If you are with others, the first person to spot a 'no dogs' sign should start barking or yapping and run towards it. The others should follow, making whatever dog-sounds seem appropriate. When everyone has gathered near the sign, stop barking and walk on as normal.

If the 'no dogs' sign spotted turns out to not be a 'no dogs' sign after all, growl at the sign until everyone is growling, then stop growling and walk on.

Do this for every 'no dogs' sign you encounter on your walk.
